

// KEY FACTS

- TIB as project lead & service provider for long-term preservation, building on experience of offering a digital preservation (DP) system as a service
- Duration: April 2025 – March 2030
- LiLA supports 22 university and state libraries, 6 state museums, and research institutes across Lower Saxony in establishing sustainable digital preservation workflows
- Funded by Ministry of Science and Culture of the State of Lower Saxony (MWK)

// PROJECT GOALS

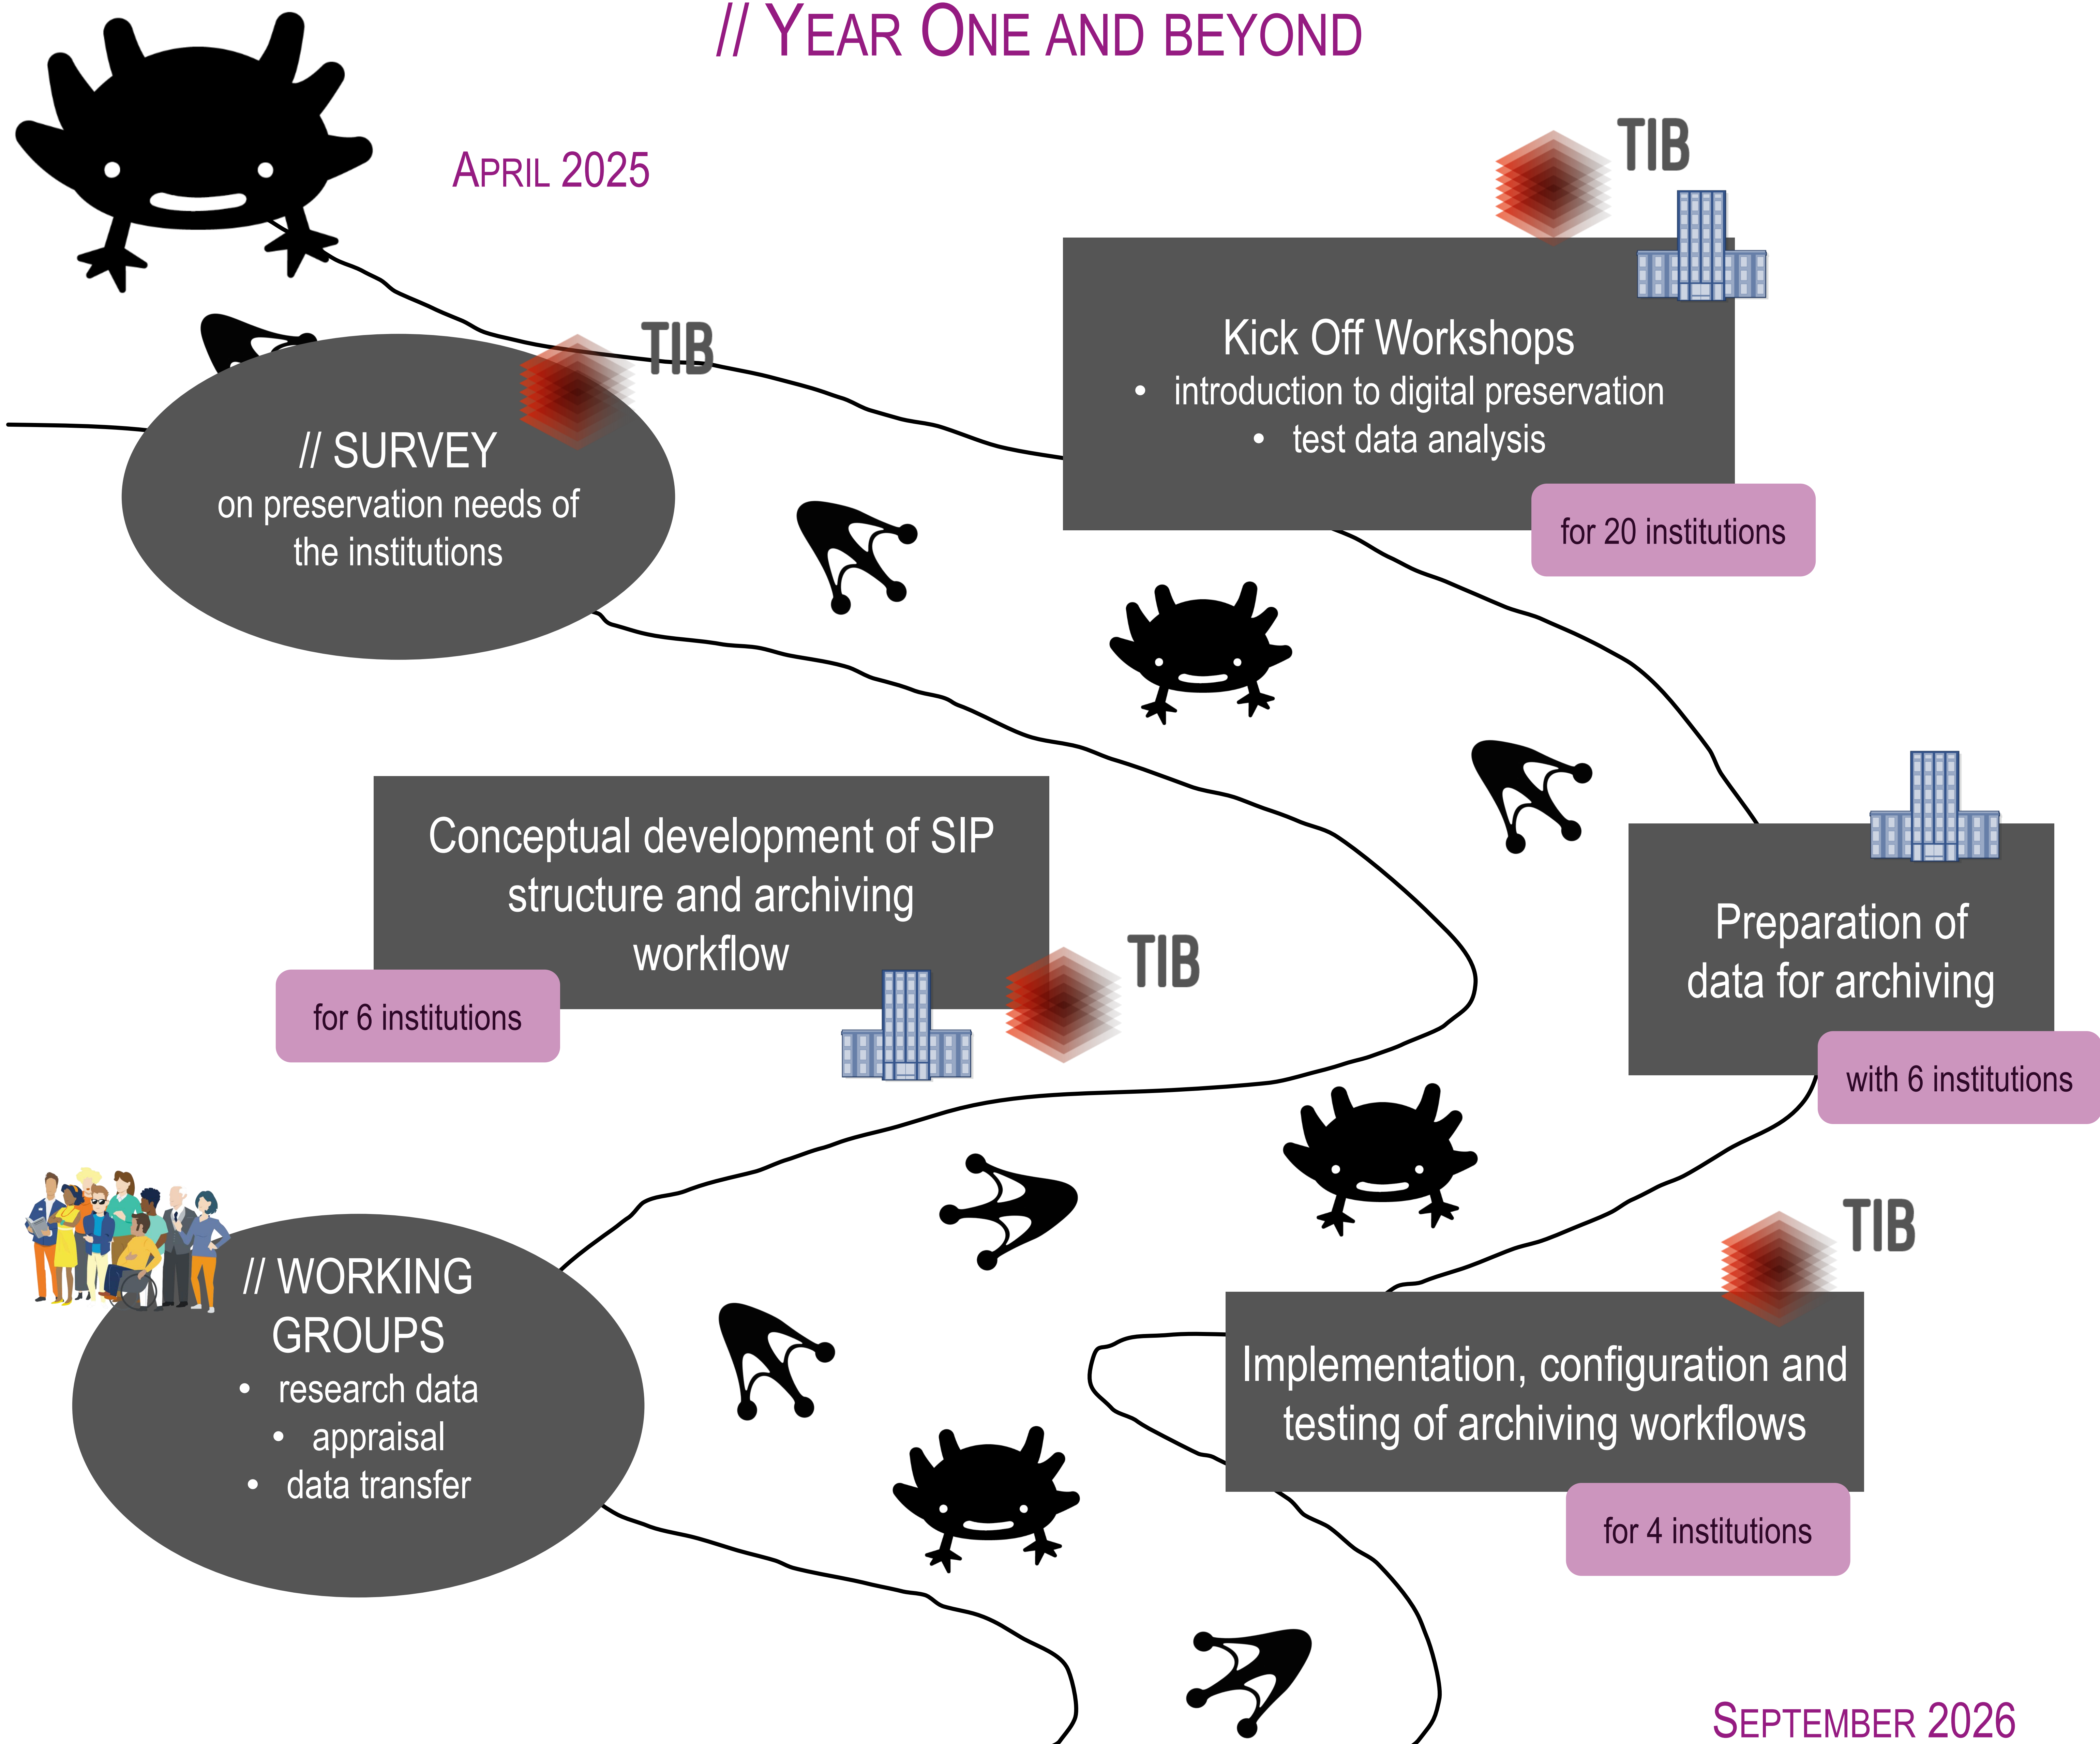

// STRUCTURE

Service Model	Description
Consulting	Establish DP structures within the institution, via transfer of knowledge and expertise. Topics can be: identifying collections, assess fitness for archiving data etc.
Structuring	Development of structural concepts for the implementation of DP and support with SIP building
Implementing	Based on TIB's DP Service: Transfer of a collection into TIB's DP system (www.tib.eu/en/services/digital-preservation-as-a-service)

- 6 institutions are onboarded each year staggered across project
- Institutions choose between service models: consulting, structuring or implementation
- Institutions can choose to archive selected collections in TIB's DP system
- Projects with additional funding – dealing e.g. with film digitization and digital editions – are affiliated with the main project with regard to preparing collections for DP

// YEAR ONE AND BEYOND

// QUESTIONS FOR THE NEXT YEARS
